## ABOUT

---

A Self-taught developer with a passion for collaboration, technology, and basketball. My experience with the Los Angeles Lakers, participating in the Collab Lab, and being a part of the 100devs community has honed my skills and shaped me into the developer I am today. I'm looking to bring my knowledge and drive to a team with worldwide influence.

## WORK EXPERIENCE

---

### Los Angeles Lakers

Oct 22 - June 23, Sept 23 - June 24

*Web Developer Intern*

- Migrate code base from Gatsby to Next
- Ship production code and carry out quality assurance tests
- Refactor legacy code to enhance end-user experience, ensure compliance with modern standards, and meet NBA requirements
- Efficiently Manage tasks across multiple projects within tight timelines for the Lakers, South Bay Lakers, and Lakers Gaming

### Collab Lab

Sept - Dec 22

*Associate Developer*

- Contributed to the creation of a responsive smart shopping list web application
- Worked in an Agile team of four, handling project requirements, design, coding, testing, and ongoing improvements
- Utilized pair programming and code review for iterative enhancements
- Collaborated remotely under the guidance of experienced engineers

## PROJECTS

---

### Lakers Stats

- Developed an app allowing fans to see team statistics across regular season, playoffs, preseason, and summer league
- Enabled users to view top 3 leaders in each major statistical category
- Collaborated closely with team designer to iterate on UI/UX design, implementing feedback for improvement and increased user experience

### The Narrative Mind Blog + CMS

- Created a blog with a fully integrated frontend and backend, allowing streamlined post management for admin
- Implemented an AI chatbot using GPT-4o-mini to assist in creating and editing blog posts
- Designed and built a user-friendly admin page, allowing seamless control over blog content

## SKILLS

---

JavaScript, TypeScript, React, Next.js, Gatsby, Node.js, OOP, HTML, CSS, Tailwind CSS, Bootstrap, MongoDB, Web Accessibility

## EDUCATION

---

California Lutheran University

BS, Exercise Science
